

# Quality Policy

---

Quality is integral to Pall Corporation's core values and business principles.

These values guide us to deliver safe, compliant products of the highest quality standards. They are essential to achieve our mission to partner with our customers to solve their most critical challenges.

We will never compromise on the safety, compliance or quality of our products and expect all associates to understand their responsibility to continually improve our quality management system to meet customer requirements and achieve our strategic priorities.

We expect every Pall associate to demonstrate their commitment to Quality excellence by adhering to these **Foundational Principles** in their daily work:

Understand and ensure strict **Compliance** to all customer, regulatory, industry standards and internal requirements that impact product quality, performance, and applications globally.

Drive **Customer Obsession** to seek, solve and service their needs in everything we do.

Foster a **Culture of Zero Defect** and 'do it right the first-time mindset' by training and empowering associates to prevent escapes.

**Continuously Improve** our Quality Management System through assessment, audits, DBS tools and periodically reviewing our objectives and results.

A handwritten signature in black ink that reads "Naresh".

Naresh Narasimhan  
President, Pall Corporation
