

**Subject:** Notification of Pall Corporation's Allegro™ single-use systems with component article(s) containing Substance of Very High Concern (SVHC) in excess of 0.1%

**Reference:** European Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) Regulations (EC 1907/2006), plus UK implementation statues, and amendments in respect of European Chemicals Agency (ECHA) SVHC levels in articles and component articles

Pall's Allegro single-use systems (SUS) are considered 'complex objects' comprised of 'component articles' under the REACH regulations. These products do not contain authorized substances found in Annex XIV ('List of substances subject to authorisation') nor any substances subject to Annex XVII restrictions ('Restrictions').

### **Substances of Very High Concern**

With respect to the REACH Candidate List of SVHCs, some component articles may contain the following SVHCs at a concentration of greater than 0.1% by weight:

#### **Siloxanes**

Allegro SUS may include one or more silicone components containing the following candidate listed SVHCs above 0.1% by weight.

<u>Name</u>	<u>Chemical Abstracts Service (CAS) Number</u>
Octamethylcyclotetrasiloxane (D4)	556-67-2
Decamethylcyclopentasiloxane (D5)	541-02-6
Dodecamethylcyclohexasiloxane (D6)	540-97-6

#### **Lead**

Allegro SUS may incorporate sensors where the supplier has advised that lead is present above 0.1% by weight.

<u>Name</u>	<u>CAS Number</u>
Lead	7439-92-1

#### **Hydrogenated Terphenyl**

Allegro SUS may incorporate sensors where the supplier has advised that Hydrogenated Terphenyl is present above 0.1% by weight.

<u>Name</u>	<u>CAS Number</u>
Hydrogenated Terphenyl	61788-32-7

Please be advised that in line with the requirements of Waste Framework Directive 2008/98/EC Article 9(1)(i) as amended by 2018/851/EU, the component articles and the complex objects using these components are listed in the ECHA database for Substances of Concern in Products ('SCIP').

All Allegro SUS labels include a link to this regulatory letter for notification and information purposes.

**Addendum 1** to this letter contains a listing of the ECHA SCIP database entry numbers made by Pall Corporation alongside a description of the applicable component articles in the “Primary Article Identifier” field of SCIP. To check if your specific Allegro single-use system part number is covered by an entry, please consult the field marked “Other article Identifier” within the ECHA SCIP database, where the impacted Allegro single-use system part numbers (subject to that entry) have been listed. Alternatively, you can consult your Allegro single-use system drawing(s) for the component part numbers used in that system(s).

**Addendum 2** to this letter contains a listing of all component part numbers which have been entered into the ECHA SCIP database. Please note that Addendum 2 is complete as of the date of this letter but is subject to continuous review as new supplier information is received or new components require additional entries into the ECHA SCIP database. We will update this letter on a periodic basis, but you should consider the ECHA SCIP database as the primary and most up-to-date source of information.
